FRESH LIKE...

Aloe Vera

Aloe vera is a medicinal plant that grows in Africa and India. Its extraordinary beneficial properties have been known and appreciated for over 2,000 years. It is also used in mattress fabrics—extremely soft materials that ensure a perfect and restorative night's sleep.

Aloe vera effectively combats the growth of fungi and bacteria, while also having a beneficial and soothing effect on the skin.

Antibacterial and antifungal effects:

They combat the growth of microorganisms, thereby improving the product's hygiene.

Soothing properties: They provide a sense of well-being and freshness on the skin, making them perfect even for sensitive skin.

Softness and comfort: fabrics infused with aloe vera ensure a superior quality of rest, ideal for high-end mattresses and furniture.

Features

Antibacterial properties

Mold-resistant finishing

Soft to the touch

Humidity Control

A soothing and moisturizing treatment for the skin.

Design examples

All fabrics can be customized in terms of patterns, colors, and composition.
