A Mirage in the Oasis

With Miraggio, Stellini Group unveils the first chapter of its visionary 2025 Collection, Oasi—a curated universe of textiles that invites us to rediscover comfort, serenity, and imagination.

Rooted in the concept of the oasis as a sanctuary of calm, Miraggio explores new frontiers in bedding and furnishing fabrics, where technology and aesthetics converge to redefine the very essence of rest.

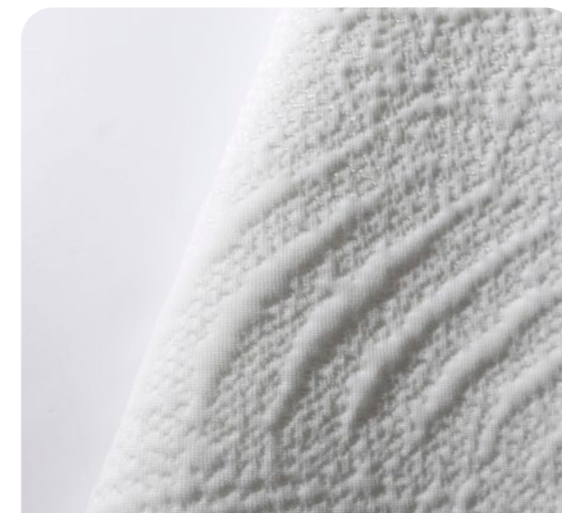

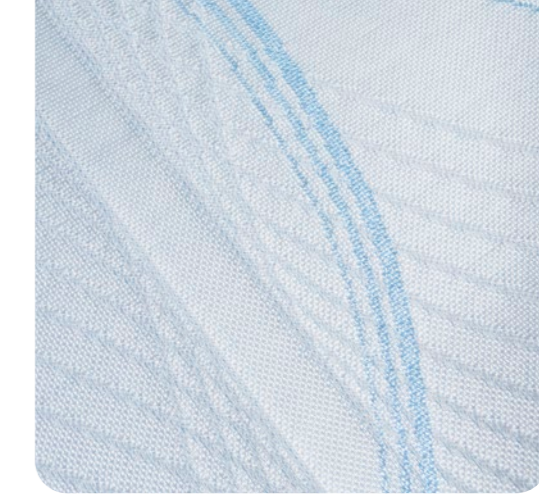

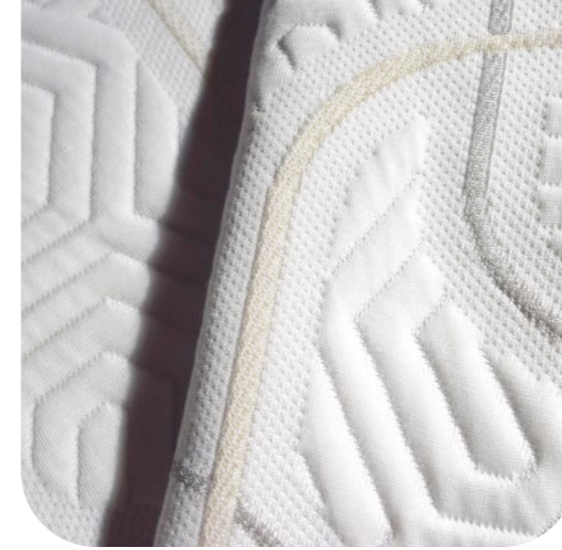

Inspired by dreamlike landscapes, from mirages in vast deserts to the surreal edges of sci-fi realms, Miraggio embraces the duality of illusion and substance. The collection plays with geometric abstractions, organic textures, and soothing tones—white, beige, and sky blue—to evoke both the real and the imagined.

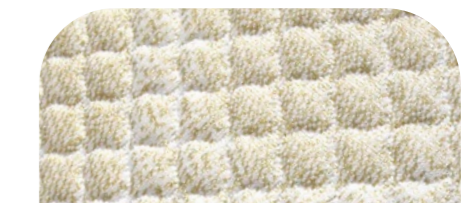

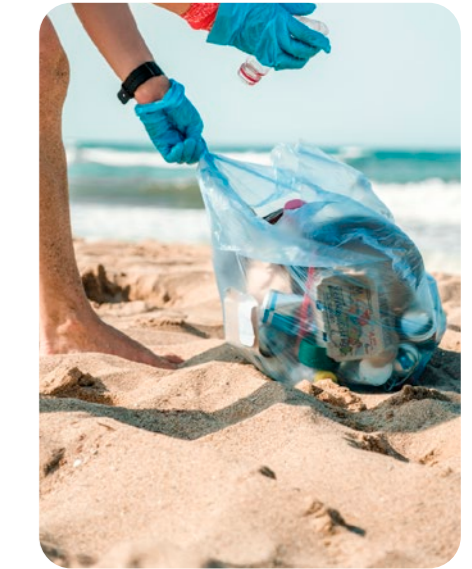

Soft knits, high-end jacquards, mattress borders and bed base fabrics are the protagonists of a collection that dares with new constructions, from bouclé to color and technical effects that elevate the customer's sensory experience, while the use of recycled and natural materials continues Stellini's commitment to sustainable innovation.

Functionality meets vision with advanced performance features: from cooling fabrics to technical developments, explore high-end fabrics designed for bedding and furnishing products, capable of providing the perfect restorative sleep.
